RE: Permit Applicability Determination
FMW Composite Systems, Inc.
Northpointe Bus. & Industrial Park
077-00091

Dear Mr. Siesky:

It has been determined that a permit will not be required under 45CSR13 for your proposed new processes of a composite manufacturing facility. This determination is based on information included with your permit determination form, dated January 26, 2017, and received on January 30, 2017, which indicated that the increase in emissions will not exceed two (2) lbs/hr OR five (5) tons/year of total Hazardous Air Pollutants (HAPs); six (6) lbs/hour AND ten (10) TPY of any regulated pollutants, or trigger a substantive requirement of any state or federal air quality regulation.

Please bear in mind that any additional changes to the proposed facility may require a permit under 45CSR13. Furthermore, pursuant to 45CSR13-5.14, records briefly describing the proposed change, the pollutants involved, the potential to emit for each pollutant increased or added shall be maintained by the owner or operator for at least two (2) years and made available to the Director upon request.

No Permit Required Letter to Mr. Siesky

Should you have any questions concerning this matter, please contact the undersigned engineer at 304-926-0499 ext. 1214.

Sincerely,

Edward S. Andrews, P.E.
Engineer
